

Figure 1 illustrates the dimensions of the test specimen. The overall width is 800 mm, and the overall height is 400 mm. The specimen has a central rectangular area with a width of 748 mm and a height of 300 mm. The top and bottom edges of the specimen are offset by 16 mm from the corners. The total width including the offsets is 796 mm, and the total height including the offsets is 368 mm.

Technical drawing of a rectangular box. The main drawing shows a perspective view of the box with dimensions: length 800, width 300, and height 43. The bottom edges are labeled 768 and 27. A detail view of the top-left corner shows a 45-degree chamfer with a width of 16. The chamfer is indicated by a green circle and a dashed line.

Technical drawing of a trapezoidal part. The top width is 3, the bottom width is 16, and the height is 10. A circular feature with a radius of 5 is shown on the right side, centered on the top edge.
