

A PORTA DE DUCHE VÉNUS

Instruções de instalação

Informações gerais

Nota: o vidro de segurança não pode ser retrabalhado.
Leia atentamente estas instruções antes de iniciar a instalação.

- Tenha especial cuidado ao perfurar as paredes, para evitar danificar tubos ou cabos elétricos ocultos.

Inspecione o produto no momento da receção para detetar eventuais danos de transporte, embalagens ou peças em falta, ou defeitos de fabrico. Os danos comunicados posteriormente não poderão ser considerados.

Manuseie o produto com cuidado, evitando choques e impactos em todas as faces e arestas do vidro.

- Nota: este produto é pesado e requer duas pessoas para a sua instalação.

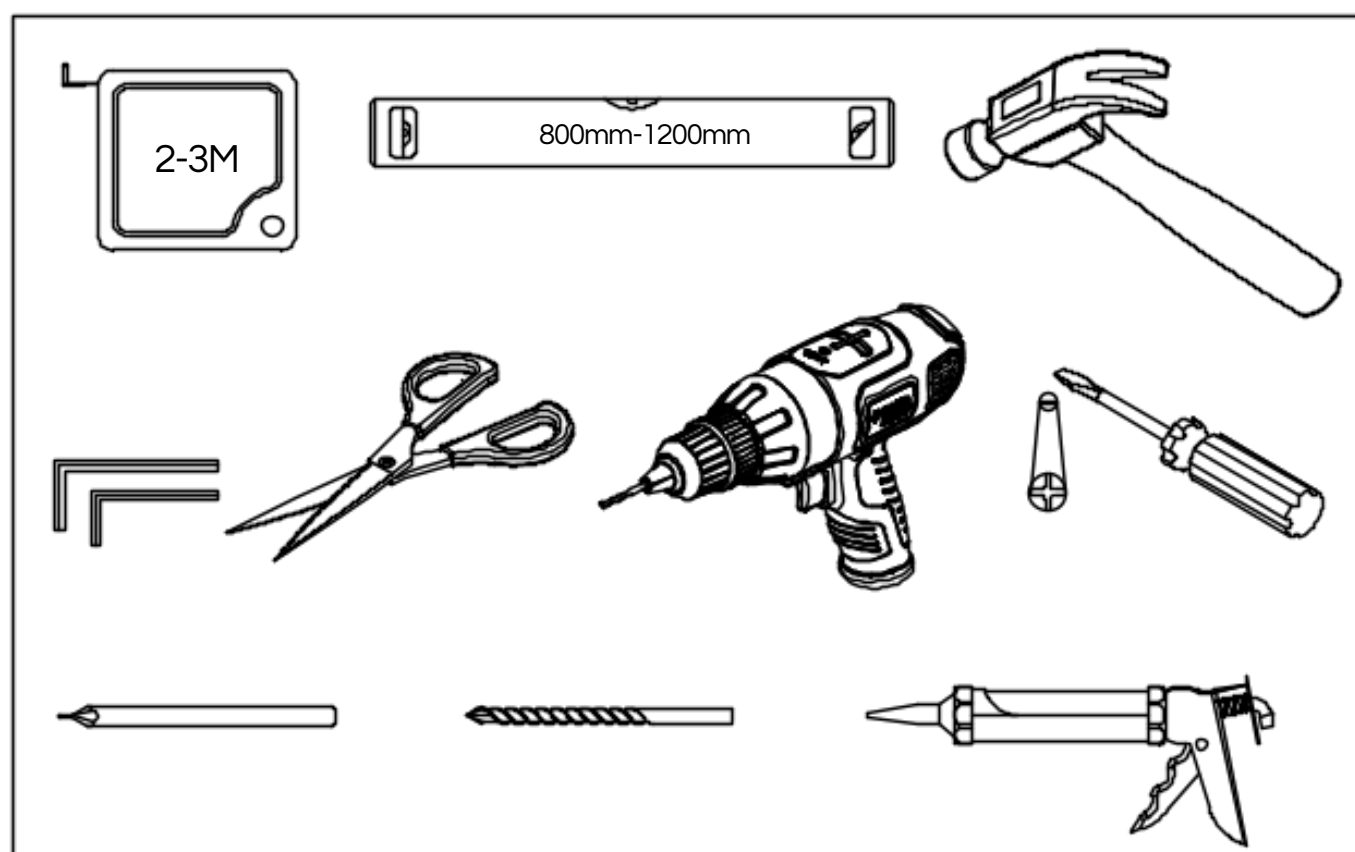

Manutenção e limpeza

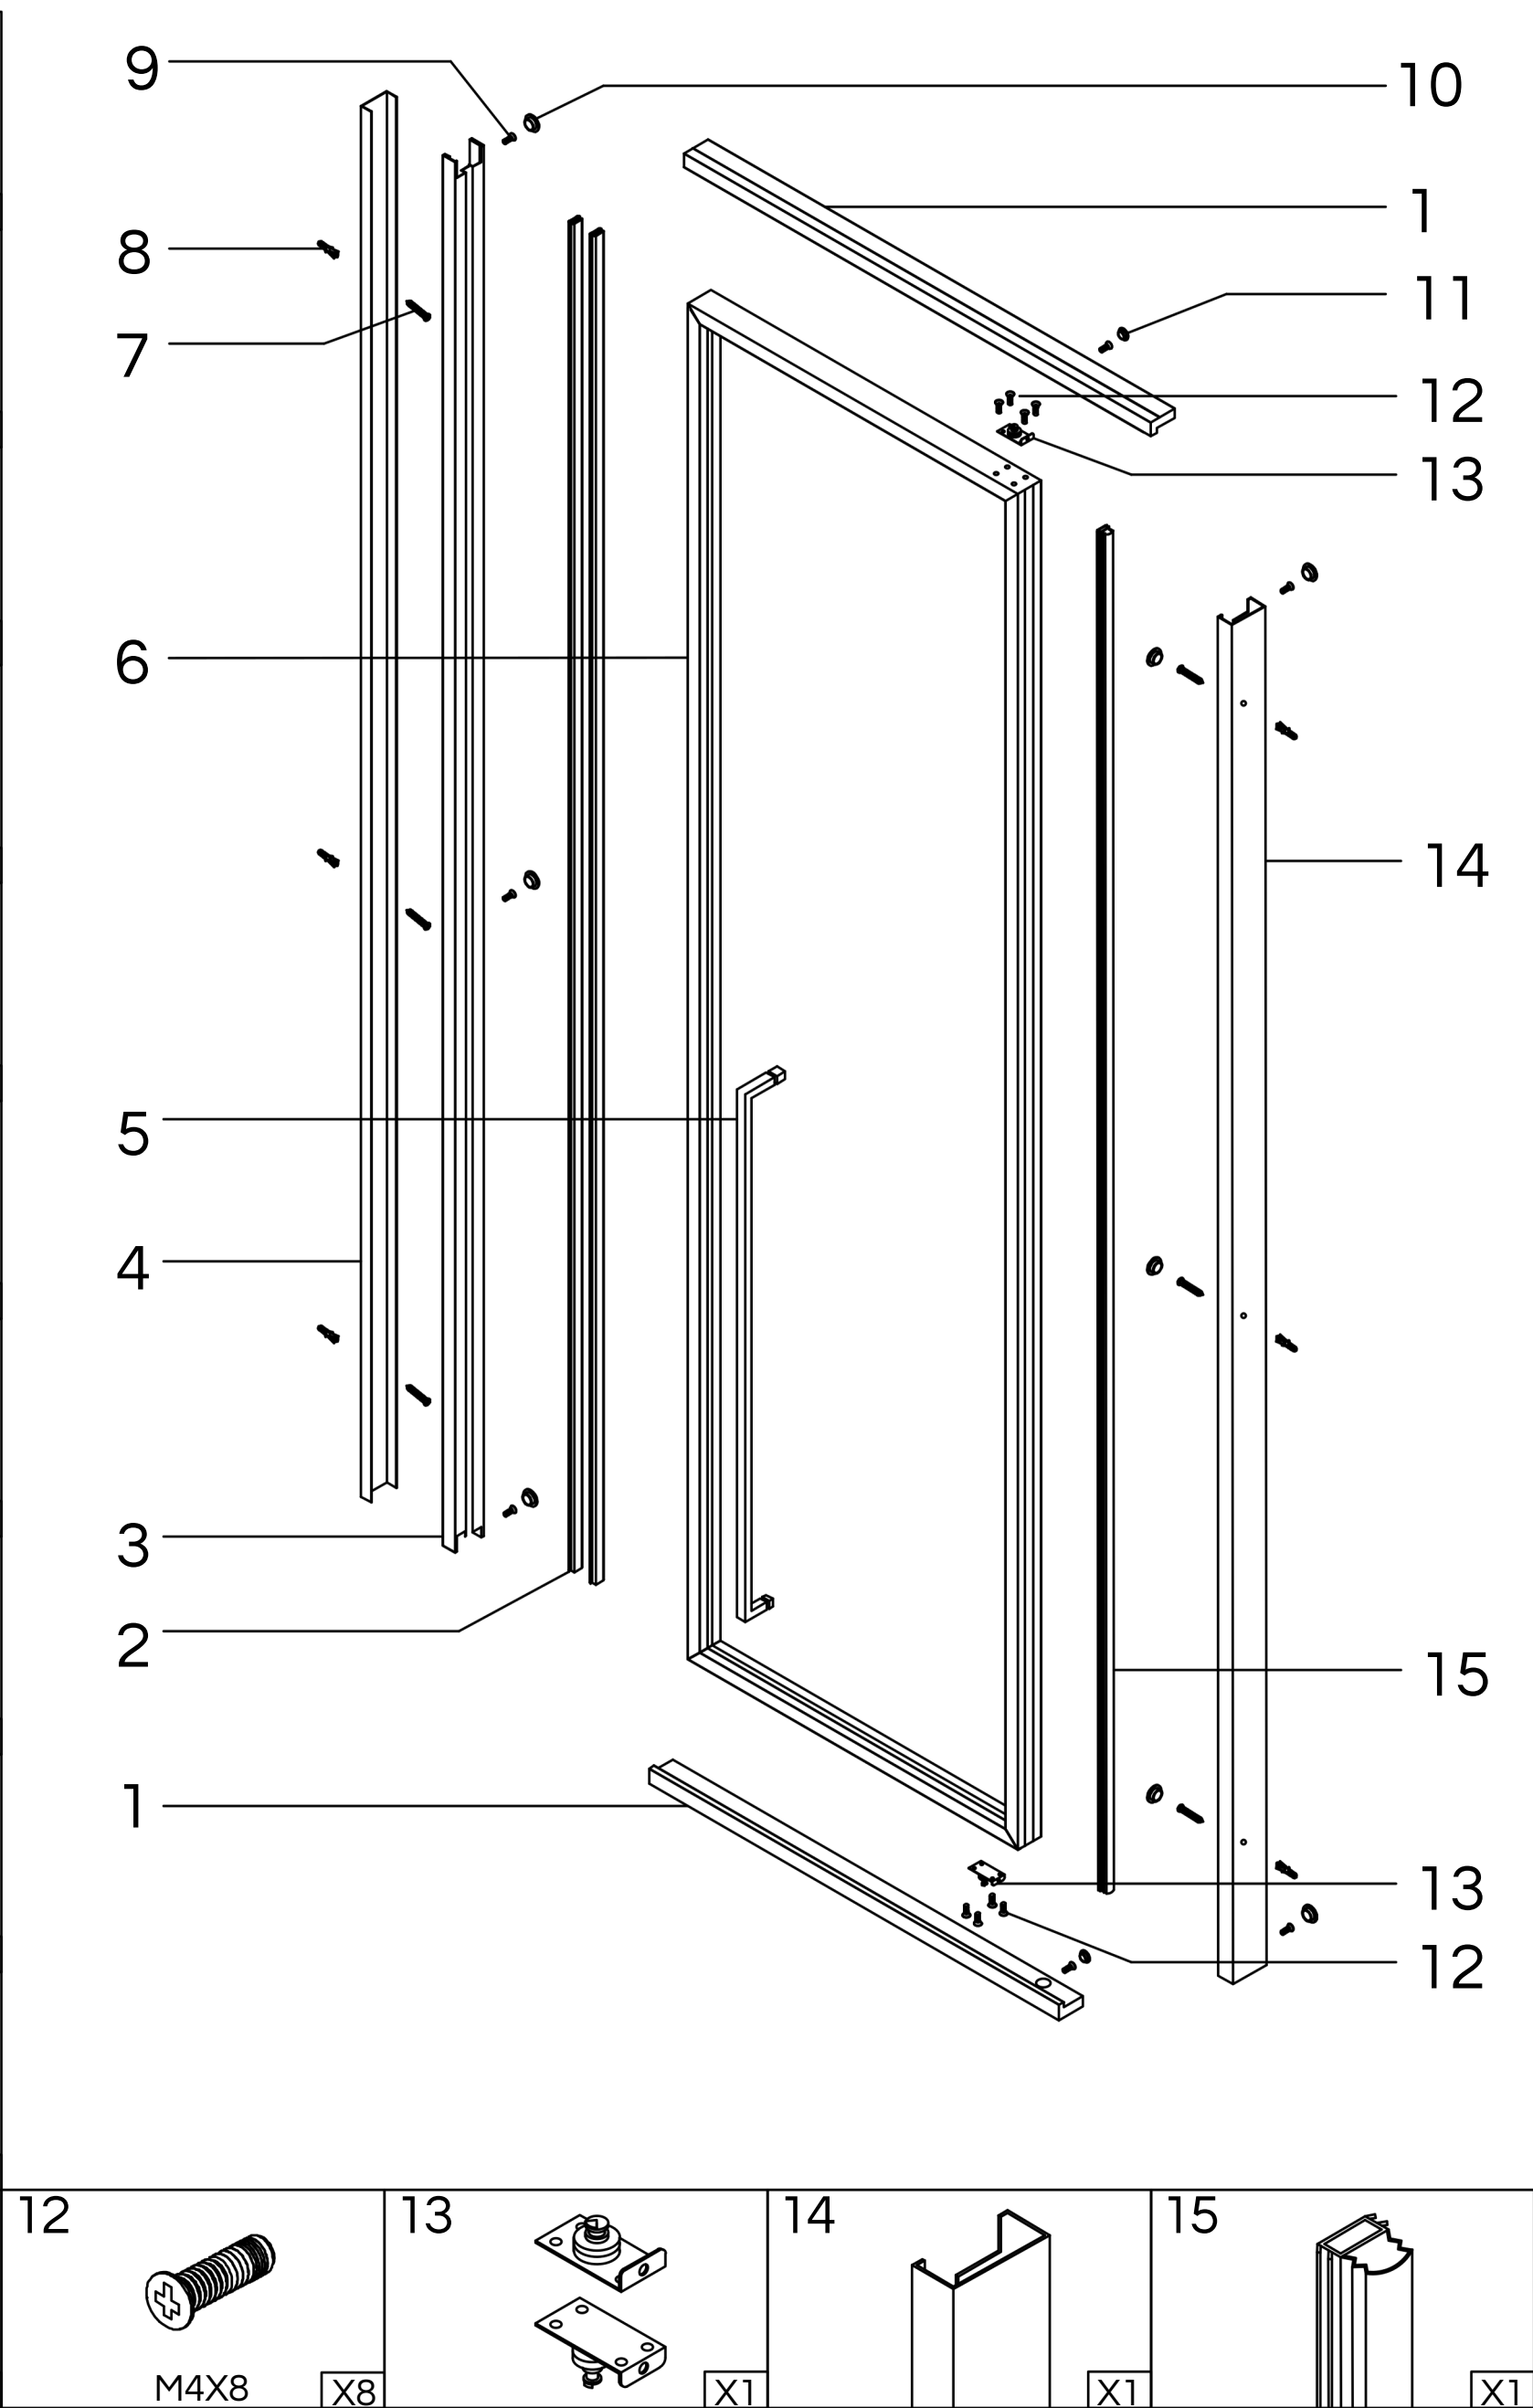

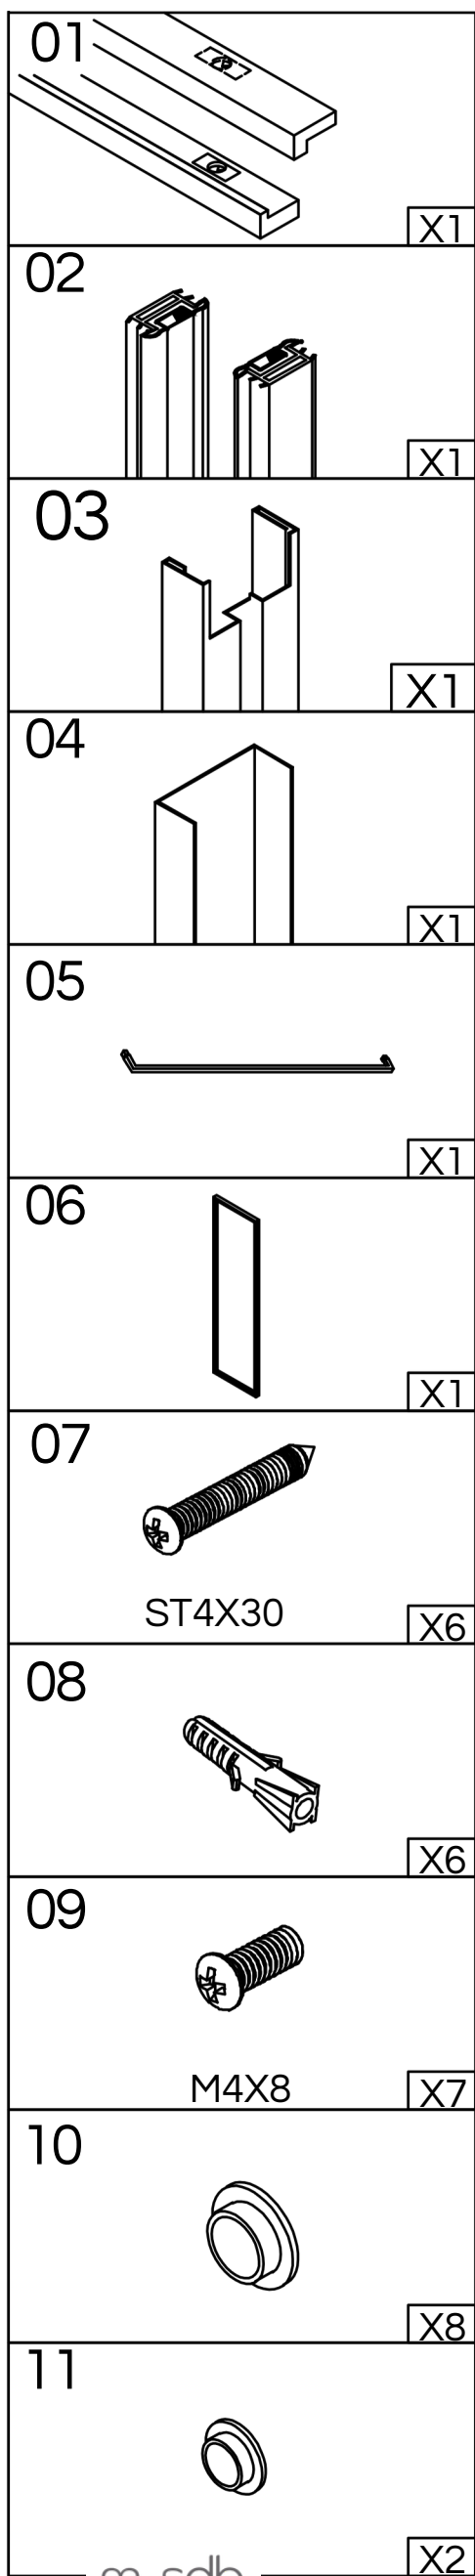

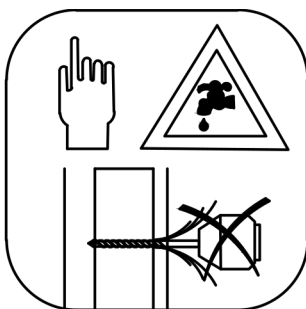

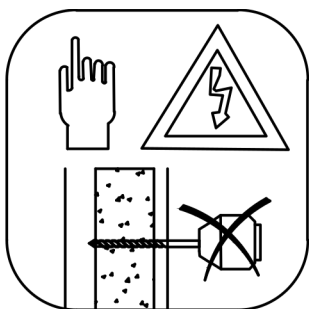

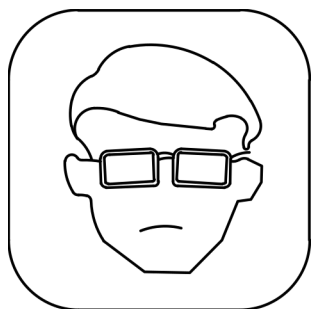

Regra geral, basta utilizar um pano macio e húmido para limpar toda a cabine de duche. Não utilize detergentes agressivos, como álcool, gasolina, produtos de limpeza para instalações sanitárias ou outras substâncias solventes.

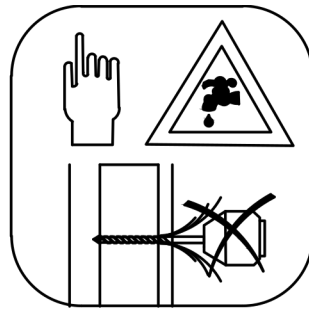

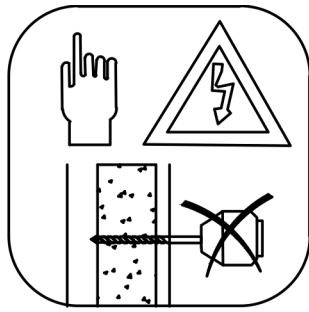

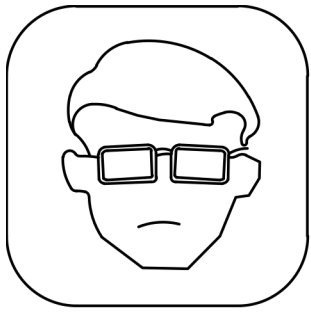

Para manchas persistentes, utilize um pano de algodão com detergente neutro e, em seguida, enxague com água limpa.

Para evitar riscos, não utilize objetos duros ou afiados, como uma escova metálica, para limpar a cabine de duche.
