

LA PUERTA DE DUCHA VÉNUS

Instrucciones de instalación

Información general

Nota: el vidrio de seguridad no puede volver a trabajarse.
Lea atentamente estas instrucciones antes de comenzar la instalación.

- Preste especial atención al perforar las paredes para evitar dañar tuberías o cables eléctricos ocultos.

Inspeccione el producto en el momento de la recepción para detectar posibles daños de transporte, embalajes o piezas faltantes, o defectos de fabricación. Los daños comunicados posteriormente no podrán ser atendidos.

Manipule el producto con cuidado, evitando golpes e impactos en todas las caras y los bordes del vidrio.

- Nota: este producto es pesado y requiere dos personas para su instalación.

Mantenimiento y limpieza

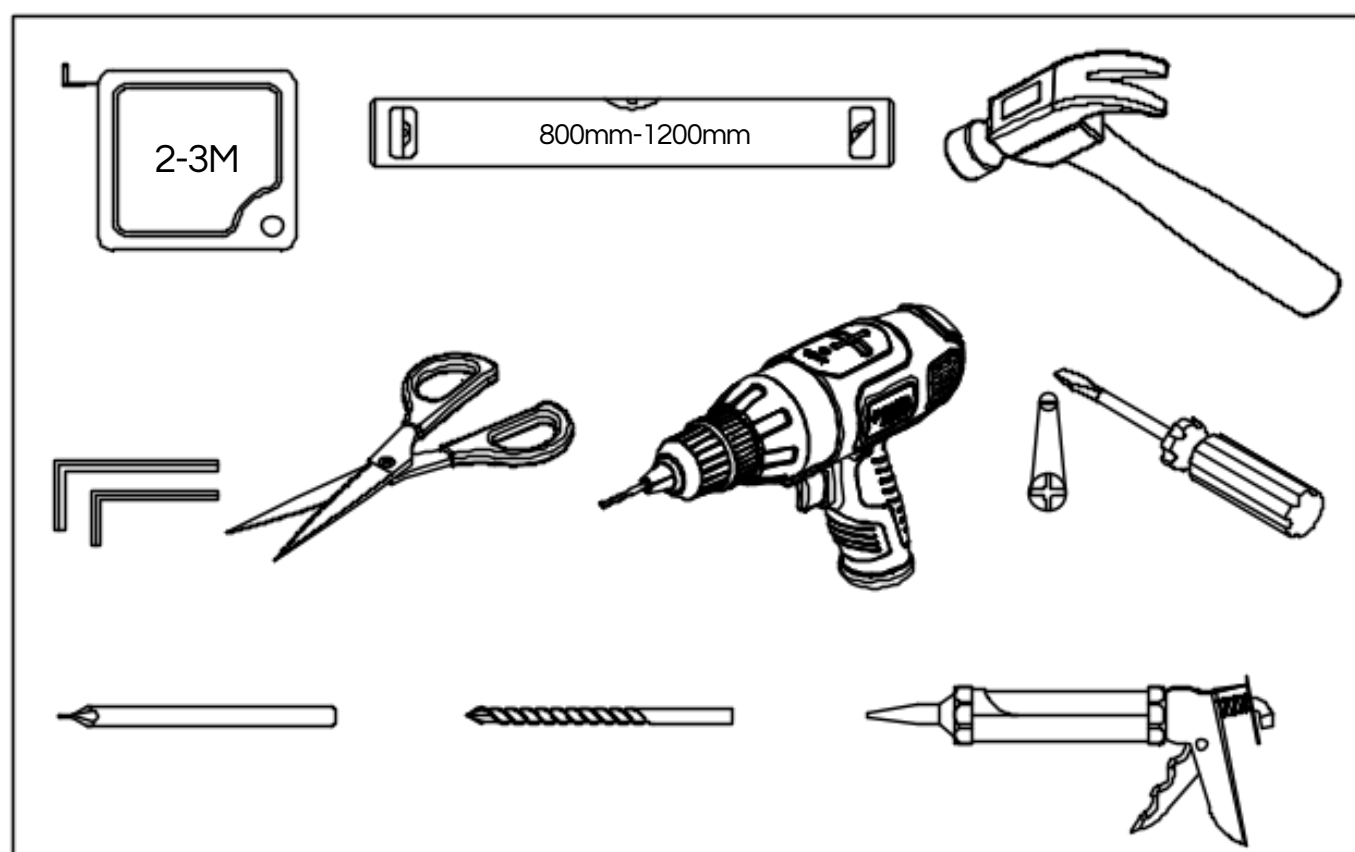

Por regla general, basta con utilizar un paño suave y húmedo para limpiar toda la mampara de ducha.

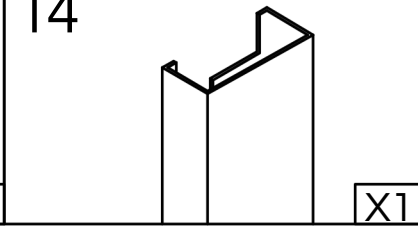

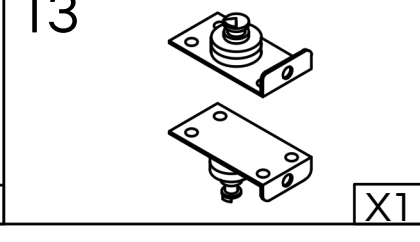

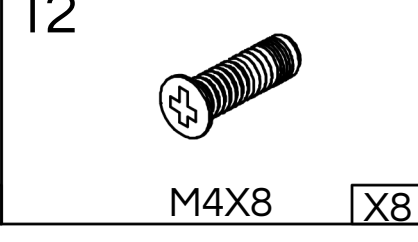

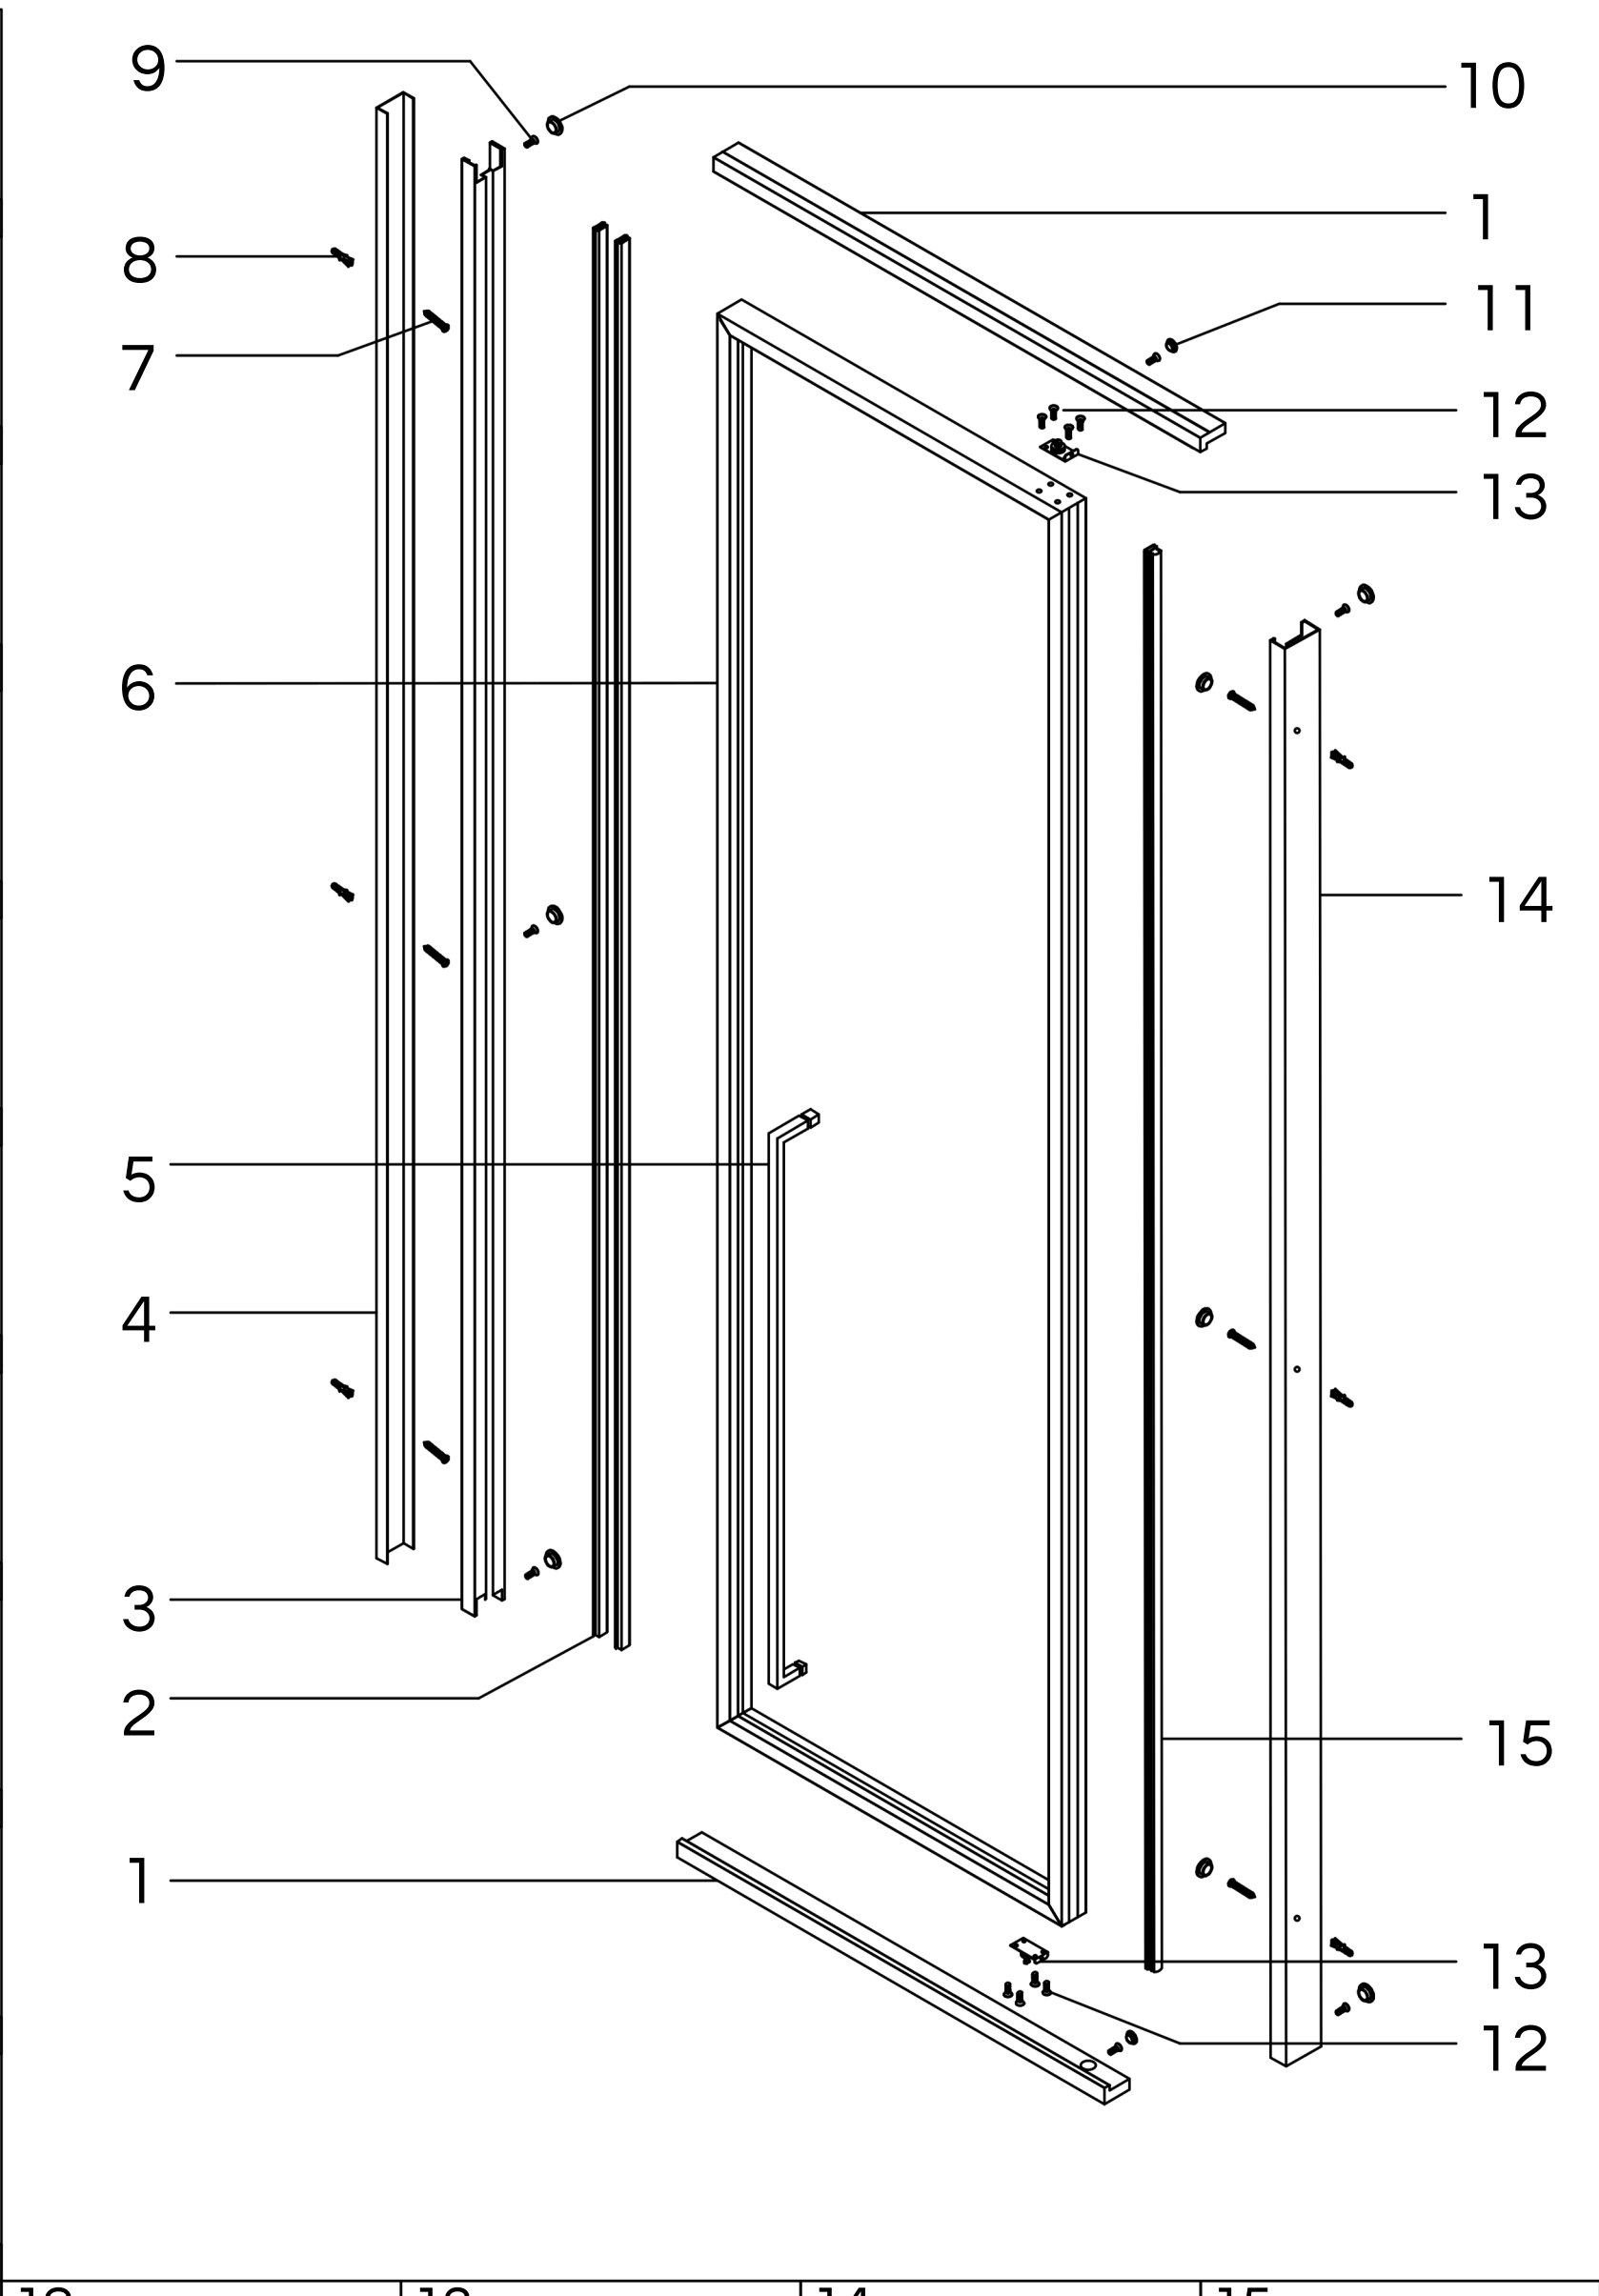

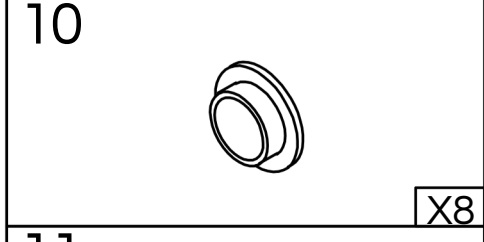

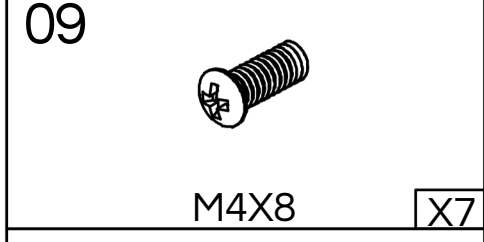

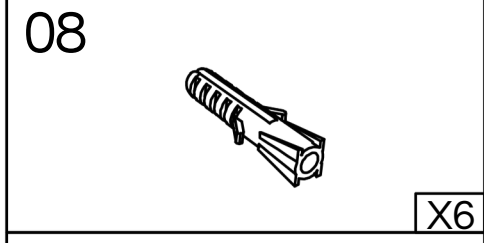

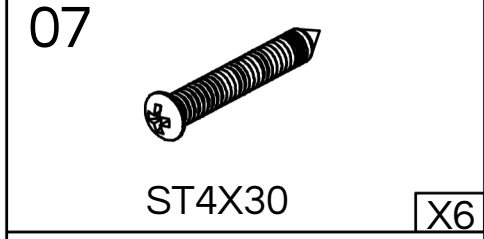

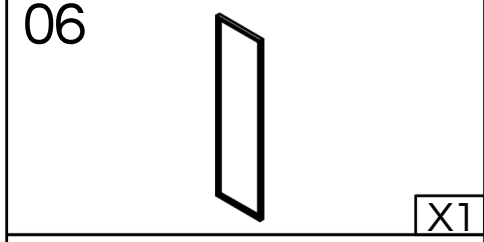

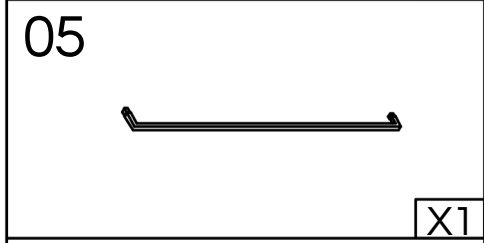

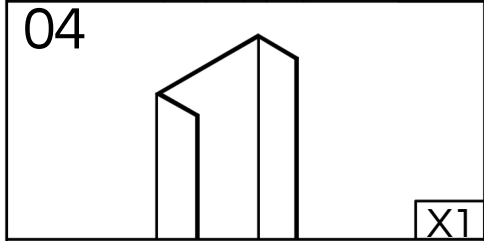

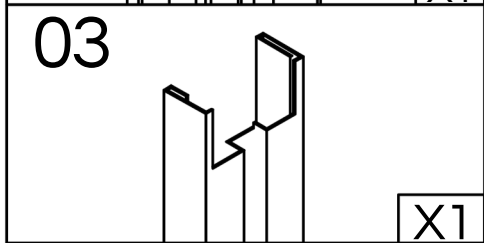

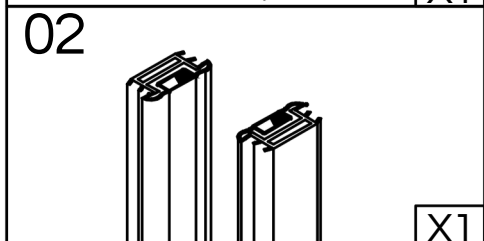

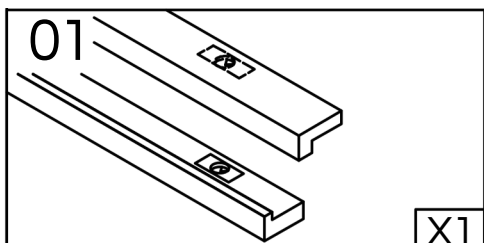

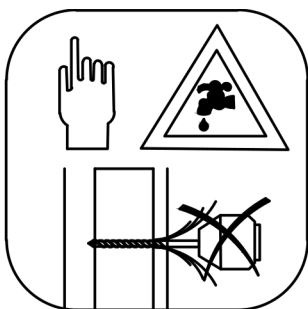

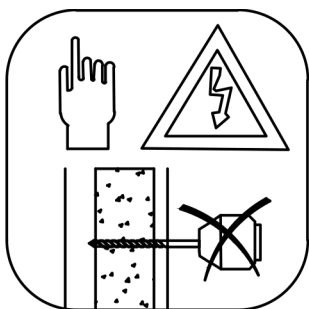

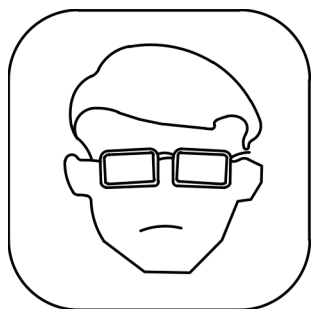

No utilice detergentes agresivos, como alcohol, gasolina, limpiadores sanitarios u otras sustancias disolventes.

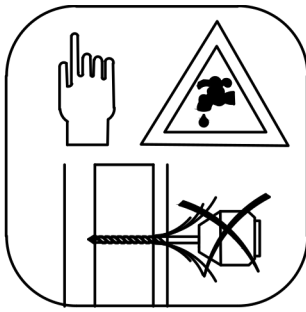

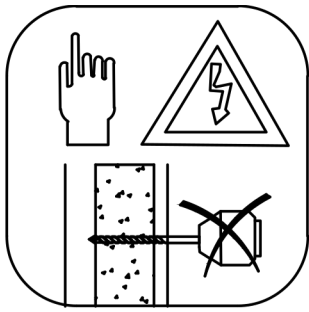

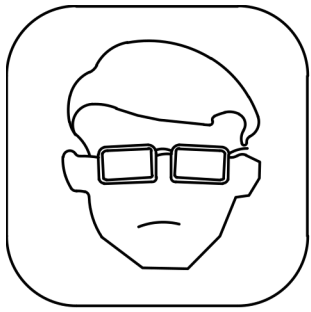

Para las manchas difíciles, utilice un paño de algodón impregnado con detergente neutro y, a continuación, aclare con agua limpia.

Para evitar arañazos, no utilice objetos duros o afilados, como cepillos metálicos, para limpiar la mampara.
